

[Please do not post address, phone numbers, or e-mail address. I get enough spam and fax spam now.]

I have no problem with the elimination of the printed LNM distribution, but would ask that instead of just a routine e-mail notice saying a new weekly LNM has been posted, that USCG attach the pdf file to the e-mail. Shouldn't cost USCG any more, but would assure that subscribers get new issues ASAP. If this creates problems for persons who access e-mail through dial-up, then perhaps system could be set up to allow users a choice.
